

Amendments to the Claims

1. **(Currently amended)** A resin composition comprising 100 parts by weight of chlorinated polyolefin with a chlorine content of 10 to 50 % by weight, 0.01 to 10 parts by weight of ~~tris(isocyanatophenyl)thiophosphate~~ tris(isocyanatophenyl)thiophosphate, and 2 to 40 parts by weight of an organic diisocyanate compound.

2. **(Original)** The resin composition according to claim 1, wherein the chlorine content of the chlorinated polyolefin is in the range of 14 to 40 % by weight.

3. **(Original)** The resin composition according to claim 1, wherein the chlorine content of the chlorinated polyolefin is in the range of 20 to 30 % by weight.

4. **(Currently amended)** The resin composition according to claim 1, wherein the ~~tris(isocyanatophenyl)thiophosphate~~ tris(isocyanatophenyl)thiophosphate is contained in an amount of 0.5 to 5 parts by weight per 100 parts by weight of the chlorinated polyolefin.

5. **(Original)** The resin composition according to claim 1, wherein the organic diisocyanate compound is contained in an amount of 3 to 30 parts by weight per 100 parts by weight of the chlorinated polyolefin.

6. **(Original)** The resin composition according to claim 1, wherein the organic diisocyanate compound is 4,4'-diphenylmethane diisocyanate.

7. **(Original)** A paint which contains the resin composition according to claim 1.

8. **(Original)** A resin solution which is obtained by dissolving the resin composition according to claim 1 in a solvent so that the resin composition content thereof is in the range of 10 to 40 % by weight.

9. **(Original)** A urethane-based resin paint which comprises the resin composition according to claim 1 and polyol.

10. **(Original)** An adhesive which contains the resin composition according to claim 1.

11. **(Original)** A printing ink which contains the resin composition according to claim 1.
